Proactive and solution-oriented Professional, with a focus on continuous improvement and innovation, targeting challenging assignments as **Full Stack Developer** with an organization of high repute.

Core Competencies

.Net Full Stack Development

C# & .NET Core 9 Web API

Angular 20. React.Js, OOPS

REST API Design & Integration

Azure : Function, EventHub, DevOps, Logic Apps, ServiceBus, DataFactory

CI/ CD Pipelines

Azure Kubernet, Dockers

Messaging Systems (Kafka, RabbitMQ)

Database Design & SQL

Data Structure & Algorithm

CSS, HTML, JavaScript

Microservices Architecture

System Design, SOLID Principal

Factory, Repo. CQRS, Singleton, Unit of Code Design Patterns

Agile, RAG, QLoRA Generative AI

Technical Skills

Category	Tools / Technologies
Front-end Technologies	Angular 20, jQuery, RxJS, Bootstrap, HTML
Back-end Technologies	.NET Core, ASP.NET, .NET MVC, Microservices, REST API, Entity Framework (ADO)
DevOps / CI-CD	CI/CD Pipelines, Azure DevOps
Database & Data Management	MS SQL Server, NoSQL
Architecture & Design	Design Patterns, Data Algorithms

Profile Summary

- A goal-oriented professional with **over 7 years** of experience in full SDLC delivery, cloud deployment, & Agile-Scrum practices, developing scalable, high-performance applications from scratch, spanning finance, gaming, and public service domains.
- Currently working in EY, successfully completed **4 full-cycle projects** (2 back-end in .NET Core, two frontends in Angular) as the sole developer from scratch and 4th project completed in Feb 2026.
- Recently honored with **Business Extra Ordinary Award 2025 - EY**
- Strong experience in end-to-end design and development of enterprise web applications using **.NET Core, C#, Kafka, RabbitMQ, Data Structure & Algorithms, Angular (8-20), Node.js, SQL Server, Azure DevOps**, and **REST APIs** across diverse client environments including EY, Microsoft, SEI, Light & Wonder, and NSW Government (Australia).
- Excellence in managing end-to-end **delivery / project planning & implementation** from scope management, to activity sequencing, effort & cost estimation, risk analysis to quality management in line with the guidelines & norms.
- Rich proficiency in designing, developing, and optimizing **RESTful APIs using .NET Core 9**, enhancing back-end efficiency and maintainability, Event Driven Application.
- Ensured **code quality and system reliability** through clean coding practices, peer reviews, debugging, and performance optimization, driving continuous improvement in existing software products.
- Significant experience of **working with clients and technical teams for executing projects** with focus on project coordination, documentation, business reviews and presentation.

Career Timeline

Work Experience

EY India as (.NET 8/9/ 10 Full Stack & Angular 20)

Aug' 24 - May'26

Project: AEGIS Framework- SRAP, HR-ROFO, MATERIAL ADVISOR

Responsibilities:

- Implementing **authentication, authorization, and role-based access control (RBAC)** to ensure secure application access.
- Experienced in working with **asynchronous messaging systems** such as **Kafka** and **RabbitMQ** for reliable communication between distributed services
- Utilizing **Azure DevOps** for **CI/CD pipeline** setup and automated deployment processes.
- Improving system performance and scalability through **lazy loading, caching mechanisms, and code optimization** techniques.
- Actively contributing within an **Agile-Scrum** environment to ensure timely and high-quality project deliveries.
- Directing **technology planning and direction, strategy development, leadership and implementation**, business and operational transformation execution, business solution delivery, and business development.
- Managing third party relations including vendor assessment, relationship building, vendor negotiation & commercial assessment. Established an **architect function** to ensure ample focus on on-going activities and quality improvements on an architectural level in the existing code base.
- Transforming cooperation & communication between departments, from a reactive approach.
- Building **robust architecture (logical & physical)** for different solutions by managing the security, performance, availability, compliance, scalability and maintainability aspects

Certifications

- SQL BASIC, SQL Intermediate, Problem Solving Basic, Problem Solving2, Html from Hacker Rank
- Microsoft Azure Az- 900
- Microsoft Azure AZ-204

Trainings

- Angular, C# .NET, Azure, C & C++ -- NIIT

Internship

- 6 Months .Net – Ibm-Kvch
- 6 Weeks Internship – Mta India
- 6 Weeks Cloud Computing – Kvch

Education

- B. Tech. in Computer Science
Guru Nanak Dev Engineering
College, Ludhiana
- Punjab Technical University
2014-2018

Personal Projects

- Crime Control System | ASP.NET MVC (04/2020)
- Video Interview System | ASP.NET with React
- Tour & Travel | ASP.NET Web Form
- GitHub
(<https://github.com/vsnehi>)

Personal Details

Address : Whitefield, Bangalore

Date of Birth : 25th June 1996

Languages Known : English, Hindi

- Suggesting measures for **streamlining application programming** and maintenance as per quality standards (CMMI, and so on).
- Driving efforts towards **maintaining software development practices**; adhered to company standards for coding and unit/functional test coverage.; developed / reviewed test cases for conducting Unit & System Integration Testing.
- Mapping **requirements of clients** as well as different **Service Providers, Senior Management, Vendors / Consultants & other Stakeholders** for ensuring effective translation of business needs into technology requirements in adherence with company's objectives

Highlights:

- **Developed the AEGIS framework**, a unified platform leveraged across multiple applications— including SRAP, HR-ROFO, and Material Advisor, ensuring scalability, reusability, and streamlined integration across projects.
- Delivered 2 end-to-end projects from the ground up using **Angular 19/ 20 and React.js** for the frontend and **.NET API, Azure, Data Structure & Algorithms** for backend development.
- Developed dynamic and responsive user interfaces leveraging **Angular 19/20, RxJS, HTML, CSS, and JavaScript** and AI Tools (Copilot & Claude)
- Introduced and implemented Scrum in the **SRAP Project**, used unit of work design pattern, significant communication efforts were made to establish a common understanding of required product quality and also **delivered before timeline**.

Capgemini India as (.NET 6 Full Stack with Angular 15)

Feb'23 – Aug'24

Project: Microsoft – MyHorizon

Responsibilities:

- Designed and developed MyHorizon, a model-driven application, completely from scratch.
- Worked with PowerApps, Dynamics 365, HTML, CSS, and JavaScript to build a robust, user-friendly interface.
- Built the backend using **C# .NET Core 9 Web API, Azure, RabbitMQ**, and the front-end with Angular 18, leveraging Node.js and JavaScript for seamless integration.
- Utilized technologies including Azure, GIT, JSON, REST API, XML, SQL, Stored Procedures (SPs), and Node.js for development and deployment.

Project: SEI – Homepage (.NET Full Stack)

Responsibilities:

- Designed and developed the SEI Homepage application from the ground up.
- Built the UI using Angular 13, implementing Services, Components, Modules, IDS Components, and HighChart.js for interactive data visualization.
- Worked with **Microservices, Web APIs, Azure, RabbitMQ, Design Patterns, HTML, CSS, and JavaScript** to ensure scalability and performance.
- Utilized tools and technologies such as Postman, Swagger, JSON, REST API, SQL, Stored Procedures, and Node.js for end-to-end application development.

Light & Wonder, Bangalore as (.NET 6 Full Stack)

Mar'22 – Jan'23

Project: Table View

Responsibilities:

- Implemented functional code fixes and new feature enhancements using ASP.NET, .NET Core, Angular, Entity Framework, and Node.js.
- Worked extensively with **MS SQL Server, Kafka, including Stored Procedures & database management**.
- Developed applications following Azure, Microservice Architecture, MVC, Data Structure & Algorithms, and SOLID principles, applying Factory and Repository Design Patterns for clean, maintainable code.
- Built front-end components with ReactJS, developed backend logic in C#, and integrated multiple REST APIs for seamless data flow.
- Used Bitbucket for version control and collaborative development.

Wipro Limited, Bangalore as (ASP.NET / .NET 3) Developer

Feb'19 – Mar'22

Project: Road Maritime Services | Client: NSW Government, Australia

Responsibilities:

- Diagnosed and resolved **critical production** issues by analyzing error logs, ensuring seamless product rollouts for the client using C#.
- Worked extensively with SQL, Kafka, C#, Data Structure & Algorithms, .NET MVC, and LINQ ORM for application development and data management.
- Designed and developed **enterprise-level applications** leveraging RESTful Web Services, Microservices Architecture, and established Design Patterns.
- Built and maintained web solutions using Azure, .NET Core, Angular 8, HTML, CSS, jQuery, and Node.js.
- Applied comprehensive knowledge of the Software Development Life Cycle (SDLC), exhibiting strong technical leadership within Agile-Scrum frameworks.
